

Testimonials :

❖ Param Pujya Gurudev,

Thank you for sending Shree Kummar Chatterjee to visit me. He was able to transform me in few hours with all vibes you sent.

Jai Prabhu Kummarbhai,

Thank you very much for visiting our home last night and spending quality time with us. I was completely taken back with your prayers at jain Temple in Washington DC. Then I was able to convince you to visit us at home.

You brought Param Pujya Shrimad Rajchandra's Vani , Bhakti, and Tremendous Love to us. Your positive energy allowed me to get rid of all negative vibes out of my system and also persuaded me to get rid of all Alcohol that was in my home, even though I had not touched it for several months I was holding it somehow. After throwing it all out and performing prayer with you brought lot of joy and fulfillment in my soul. This day in my life is a never forgetting event. You brought me closer to Param Krupaludev and showed me true meaning of Bhakti and Satsang that I was not following so far in my life. Now my life is on a new path and I appreciate your heartfelt efforts to turn me around.

Also thank you for showing me how to meditate with focus on each Chakra with Navakar Mantra and properly perform Lom Anulom Prayanam. This practice will take me to new levels of spirituality, the glimpse of which I was able to feel today.

Jai Prabhu

from Jitendra Tejani

❖ Pujya Chaterjee,

With your blessings, jaap and mantra my health is improving.
My cancer reports are normal.

Thank you very much

❖ Dear Kummar,

Here I recount the miraculous happening during the last days of my mother in law Muktaben.

My mother in law, Mukta passed away in July 2010 at age of 95. Here I recall her last days. She had stopped eating. Her eyes were almost closed and she had not spoken for the last two or three days. Kummar Chatterjee and his friend Pravin Turakhia visited her in a nursing home in Fremont, California while my wife and myself were present with the dying mother. Kummar sang a few devotional songs, type of songs that my mother in law enjoyed. Kummar sang beautifully, he sang spiritually. After Kummar's singing was over, Mukta opened her eyes slightly and softly repeated the last lines of the song Kummar just sang. "Mane Bhakti De Jo, Mane Bhakti De Jo". It means: oh Lord, give me devotion give me, devotion.

I am an engineer. I only believe what I find reasonable proof of or see with my own eyes. Here in this miraculous happening I saw the power of music. Kummar's music was able to wake up an almost dead person!

Regards,

Harshad Sheth
