A.K. Munshi Yojana Chowk, 3rd Panjarpole Lane,
C.P. Tank Road, Mumbai – 400 004

15th October 2013

Respected Shri Kumar Chatterjee,

The Music programme based on “Mind – Body – Soul” was organized on 9th November 2012, by you at Nehru Centre was a great success. More than 30 Special Students having ADHD, Autism and Mildly Mentally Challenged participated from A.K. Munshi Yojana. The list of the participants is attached herewith.

It is wonderful to note that there was a marked difference in their behaviour on that day and for a few more days after attending this ‘**MUSIC**’ programme. The Sound of the Music causing vibrations indeed touched their mind, body and soul and brought calmness from the hyperactiveness.

These children many of whom having multiple disabilities and who do not understand different languages. But the language of Music, taal, laya, beats does not have any barrier of language as it directly touches mind-body & soul as it vibrates every nerve.

Parents also acknowledged that earlier mild level children used to listen and sing only film music songs but on that day they sat through this program which was really surprising. **We feel this is the effect of your ‘Research’ in Music which calms the mind.** We very much appreciate the participation gift given to each on that day.

May God give you strength and resources to arrange such special programme to help these Special Children.

We shall be highly grateful to have ‘**you**’ always with us with your so much love and care for people at large, as our common motto is ‘Let’s See Everyone Bloom With Us..’

Yours Sincerely
For A.K. Munshi Yojana

Bharati Ganjawalla
President.
